A note from our CEO

"Great businesses are built by people who learn fast and execute faster. That's what the Mosaic Fellowship Program was designed for."

Revant Bhate

Co-Founder & CEO, Mosaic Wellness

What is the Mosaic Fellowship?

The Mosaic Fellowship is a paid, one-year role where you take ownership of a significant business problem and work closely with experienced leaders to solve it. You'll research, experiment, make decisions and see your work through, with responsibility for the outcome, not just the task.

Where you can work

You will join one home function. The final match will consider your interests, strengths and available roles.

FUNCTION	WHAT YOU COULD WORK ON	FUNCTION	WHAT YOU COULD WORK ON
Category	Understand customer needs, shape the product range and make pricing decisions that grow the business.	**Growth and Revenue**	Bring in new customers, drive repeat purchases and improve performance across channels.
Brand and Content	Create campaigns, stories and content that make customers notice and choose our brands.	**Engineering**	Build customer-facing features, internal tools and automations that solve business problems.
New Product Development	Take a product from an unmet customer need through development, testing and launch.	**Supply and Operations**	Improve sourcing, inventory and delivery so products reach customers reliably.
Customer Experience	Understand customer frustrations and work across teams to fix the underlying problems.	**Finance**	Build budgets and forecasts, understand profitability and evaluate investment decisions.
Analytics	Use data to answer business questions, uncover opportunities and guide team decisions.	**Human Resources**	Help build stronger teams and people practices as the organisation grows.
CEO's Office	Take on high-priority business problems, evaluate new opportunities and drive initiatives that cut across functions.		

What the fellowship enables you to do

- Own a meaningful business problem from research through execution.
- Build and test ideas using AI, data and customer insight.
- Learn directly from experienced leaders and receive regular feedback.
- Understand how product, growth, operations and profitability connect.
- Build depth in one function while working across teams.

Fellowship at a glance

FIELD	DETAILS
Who it is for	Undergraduate students graduating in 2027
Location	Thane, Mumbai
Tenure	One year
Employment type	Full-time, in-office
Compensation	₹10 LPA

Who we are looking for

We are looking for curious, clear-thinking 2027 graduates who want to take ownership and build close to real customers. You do not need to tick every box.

FIELD	DETAILS
Working style	High humility, fast learning and comfort working with senior leaders
Problem solving	Comfortable with messy business problems where the answer is not obvious
Ownership	Has built or owned something end to end, even if small
Graduation	A final-year undergraduate graduating in 2027 and ready to start a full-time role in Thane, Mumbai
Collaboration	Listens well, shares what they know and enjoys solving problems with others
Tools	Uses AI and data to make thinking sharper and execution faster

Selection process

The process is designed to understand how you think, build, use AI and handle ambiguity. It is short, practical and conversation led.

01	02	03
Submit your CV and research Mosaic	**Builder Round**	**Interviews and functional fit**
Apply through your college with your latest CV. Explore our brands, the Fellowship website and the ASYMMETRIC podcast before the next stage.	Complete a practical challenge to show how you **think, build and use AI** - by creating a consumer health & wellness app and speaking with 5 Mosaic customers to uncover insights (more details will be shared across).	You will have 2-3 conversations based on the functional fit being explored for you. We will discuss your Builder Round, motivation, judgment and where you could contribute best.

Life at Mosaic Wellness

FAQs

QUESTION	ANSWER
Who can apply?	Undergraduate students graduating in 2027 who are ready to begin a full-time role in Thane, Mumbai.
How do I know if the Fellowship is for me?	It is a strong fit if you enjoy solving ambiguous problems, want responsibility early, learn quickly from feedback and are comfortable working from our Thane office.
How is the Fellowship different from a regular entry-level job?	You will not be limited to data entry or support tasks. Fellows own a significant business problem, work across teams *(fast)* and are responsible for moving it forward.
Can I choose my function?	You can indicate your interests. The final match will consider your strengths, available roles and business needs.
Is this a rotation program?	No. You will join one home function and go deep on a defined problem, while working across teams when needed.
What is the Builder Round?	The Builder Round is a challenge where you use AI to create a health & wellness app + conduct customer research with 5 Mosaic customers. It helps us understand how you approach ambiguity, make decisions and turn your thinking into something tangible.
Do I need prior AI or coding experience?	No. We care more about how quickly you learn and apply new tools. The Builder Round instructions will explain what you need to submit.
How many interviews will there be?	There will typically be 2-3 conversations, depending on the functional fit being explored for you.
Where is the role based?	Thane, Mumbai. This is a full-time, in-office role; it is not remote or hybrid.
Is the Fellowship paid?	Yes. The compensation is ₹10 LPA for the one-year Fellowship.
What happens after one year?	Fellows with strong performance will be considered for permanent roles, based on performance, fit and available openings.
How can I learn more about Mosaic?	Explore mosaicfellowship.in and the ASYMMETRIC podcast on YouTube to understand how we think and what we care about.
